Saint Agnes Catholic School

St. Agnes School is a Catholic community centered on the teachings of Jesus Christ and strengthened by the partnership between parents, who are the primary educators of our students, and our dedicated teaching staff.

We believe in the mission to educate our students so that they become loving Christians, inspired learners, outstanding achievers, natural communicators, and strong servants of God.

Seventh grade students at St. Agnes School worked in a lab deciphering DNA nitrogen bases and building DNA code based on genotypes and phenotypes that were given to them. Who says science can't be fun?!

Certainly not St. Albert Magnus (Albert the Great), who encouraged the field of scientific discovery, *"The aim of natural science is not simply to accept the statements of others, but to investigate the causes that are at work in nature."*
